## Global Citizenship at La Garenne

La Garenne International School

At La Garenne we foster an environment of mutual respect, leading to the recognition and appreciation of different cultures, beliefs and practices. This enables our students to understand and embrace their responsibilities as global citizens.

### International and intercultural education is ...

- Opening students' horizons to global issues
- Being aware of individual responsibility on a global scale
- Being immersed in different backgrounds and cultures
- Sharing experiences and developing sensitivity to different cultures and religions through an international curriculum
