2025-2026

LA GARENNE GOLF ACADEMY

Our Golf Academy is designed to help students to take their first steps at learning this versatile and fascinating sport, or to improve their existing golf skills.

As much as it is a physical sport where the player needs to use complex techniques to hit a golf ball consistently, there is also the psychological challenge of being in the right frame of mind each and every time you face the tee. La Garenne is very proud to offer this new opportunity, in collaboration with Alexandre Lemetayer, our professional PGA Golf Pro.

With training sessions in Villars, Chessel and Evian-Les-Bains, and regular access to our own Trackman Golf Simulator, we are the only school to provide such a facility to students. **Places are limited to 6 students.**
